Dear Parents, Carers and Children,

It feels very strange to return after the Easter break and not see all of the children's faces as they arrive at school each morning. The school is a very quiet place now and you are certainly all very much missed.

Over the past few weeks, we have all worked through rapidly changing events. We understand that this may be an unsettling time for many of us and we continue to follow government guidelines to keep us all as safe as possible during this time.

Whilst schools have officially closed for now, we remain open as requested to support those who are critical to the Covid-19 response. We are also 'open' via email or phone for all parents should you wish to communicate with us.

We will do our best to get back to you promptly. We will also send text messages - please look out for them.

Children and families have been doing an amazing job with keeping learning going at home - we know it may not always be easy - and teachers have been busy preparing home learning packs & activities that we hope are also enjoyable for the children. There are also many useful website links for the children to use and a very helpful government web link on supporting learning at home, which we hope will provide further useful tips at this time.

We will keep you updated as much as possible and our school website is updated regularly - please do visit it!

Thank you for all that you are doing to support the school and wider community. We are seeing so many examples within our community of our school vision of 'shining like a light in the world' in action.

At present we do not know when schools will reopen fully and look forward to when this will happen. Our best wishes from all the staff.

Adeola Oladejo, Headteacher
