

Weekly Homework—Number 1

5 worksheets are provided, one for each weekday.

The format of the worksheet is simple and the it remains the same for each day of the week. This allows students to become familiar with the work routine expected and this will allow them to increase in confidence and independence over the course of the week. You may need to still read the instructions to them.

Key vocabulary:

How many?

count

Number

Please look for opportunities to use these words over the course of the week in your everyday activities. The more you use these words in other contexts the more your child will be likely to learn them and generalize their understanding.
