

# The Great Science Share

## *Virtual Event*

16<sup>th</sup> June 2020

The North London Primary Science Teaching Trust Cluster would like you invite you to our 3<sup>rd</sup> annual Great Science Share!

This year, we're asking schools, children and families to take part *virtually* by exploring science in their classrooms or at home before sharing with us using #GSSIslington and #GreatSciShare on Twitter.

### Who can take part?

- This event is open to KS1, 2 and 3 children. The more the merrier! We're encouraging schools, parents and families to join us – from wherever you may be on 16<sup>th</sup> June!

### What can we do on the day?

- Register with Sam Webber to be sent a PowerPoint from Great Science Share Islington
- Watch welcome videos from special guests
- Join other children in Islington by taking part in the Institute of Physics Investigation Challenge (see link on our Powerpoint)
- 10am on the 16<sup>th</sup> June: Virtual lesson with Dr Chips and Farmer Tom ([www.greatscienceshare.org](http://www.greatscienceshare.org))
- Encourage your children to ask different scientific questions and find answers to them
- Tweet your activities and see what other people are up to using #GreatSciShare and #GSSIslington

Check out some of the fun had over the country so far:
